Mobile Safety Steps

Versatile. Strong. Ergonomic.

From office storerooms to warehouse aisles, our mobile steps are engineered for safety and ease of use.

- 300kg Safe Working Load (SWL)
- Large platform for comfortable working
- Includes two handrails
- Optional platform extensions, gates & exits
- Easy to manoeuvre design

Contact us for pricing and expert guidance.

Narrow Aisle Steps

Optimised for Tight Spaces

Perfect for areas with limited room, such as:

- Warehouse racking
- Archives
- Office storage areas

Features:

- Compact design from 2–8 treads
- Multiple tread types, colours & exits
- Built to navigate narrow passages safely

📞 Contact us for pricing and expert guidance.

Extra Wide Steps

Wide Treads, Wide Benefits

Designed with 700mm treads for enhanced space and balance, ideal for:

- Bulky item handling
- Toolbox carrying
- High-reach tasks

Applications: Warehouses | Factories | Stock Picking

📞 Contact us for pricing and expert guidance.

Heavy Duty Mobile Steps

Engineered for Serious Loads

Built tougher than industry standards with a 500kg SWL.

- Steel-centred wheels
- Heavy-duty tubular frame
- Wide treads & large platform
- Ideal for heavy equipment transport

Durability you can count on —every step of the way.

📞 Contact us for pricing and expert guidance.

Collapsible Steps

Space-Saving & Strong

Need to store steps in limited space or move through narrow doorways? Our knock-down steps are the solution.

- Quick assembly/disassembly
- Matches the durability of fixed steps
- Perfect for sites with tight access

Contact us for pricing and expert guidance.

Access Platforms

Large Platform. Maximum Safety

Great for loading/unloading, inspections, and elevated tasks.

- 500kg SWL
- 2–8 treads (500mm–2000mm platform height)
- 700mm x 200mm strengthened treads
- Side exit with chains (customisable)

Optional: Fully enclosed sides for added protection.

📞 Contact us for pricing and expert guidance.

Truck Dock Platforms

Safe Access for Loading Bays

Heavy-duty truck docks designed for efficient vehicle access.

- 45° step angle for forward-facing descent
- Wide platform with 3 chained exits
- Box section base & reinforced axle
- 500kg SWL

Built for logistics, warehousing, and transport sectors.

Bespoke Solutions & Modifications
